There are many others currently available or in development for the future, details of which can be found by going to our Web site at [www.vtct.org.uk](http://www.vtct.org.uk).

So if you fancy a career in the sports therapy field, remember...

**“...the future’s in your hands”**

**With more and more people actively participating in sporting activities, sports therapy qualifications can offer a wide choice of career paths.**

VTCT is a specialist awarding body best known for offering qualifications in the fields of beauty therapy, holistic therapy and hairdressing. With 45 years in the industry, the quality of support offered to candidates and tutors is assured. All qualifications are mapped against national occupational standards, making them relevant to industry and the best way for launching your career in the industry. They are assessed and verified in a realistic working environment, letting candidates progress at their own pace. They are delivered at over 500 colleges of further education and other training organisations throughout the United Kingdom, with an increasing number of international centres now offering the qualifications worldwide. The Level 3 Diploma in Sports Massage Therapy is recognised by the Sports Massage Association allowing successful candidates to become affiliate members.
