

## **D1087 Level 3 Diploma in Crystal Therapy**

### **Pre-requisite**

- Candidates will need to have VTCT units VR02 (Support health, safety and security in the workplace) and VR74 (Support employment standards) *either as units or D1120 Level 3 Diploma in Health Safety Security and Employment Standards. This can be completed simultaneously with the skills qualification.*

### **Aim**

- to complement the holistic treatment of clients with the use of crystals

### **Objectives**

- the use of interpersonal skills with clients
- how to complement other therapies with crystals
- the types and effects of different crystals
- uses of crystals including cleansing, energising, configurations
- concepts of auras and chakras

Screening is necessary for treatments where the client may require privacy.
