

19+ Advanced Learning Loan - How to repay your loan (England only)

How do you make repayments?

It's easy!

Your employer automatically takes repayments from your salary

Your employer informs HMRC how much you have repaid

Annually HMRC tell the Student Loan company how much you have repaid

The student loan company will send you a statement

HMRC let your employer know when to stop making payments

After 30 years the balance of your loan will be written off if you haven't completed payment. The 30 years starts from the April you completed or left your course.
